

«4:50 from Paddington»

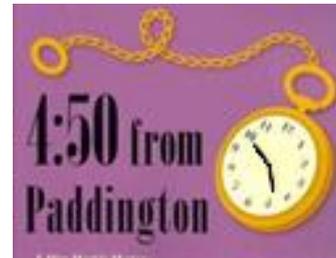

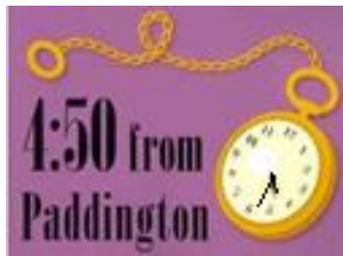

Paddington station is a train station located in London.

« 4.50 from Paddington » is a famous novel by Agatha Christie.

Miss Marple is the detective in charge of the investigation.

1/ Her train is leaving Paddington station at 4:50

What is the correct picture for 4 :50?

2/ Miss Marple is going to Southampton.

a) Colour the dots for London and Southampton on the map.

b) Calculate the distance between London and Southampton. (Use the scale)

c) By train, the journey takes two hours and forty-three minutes .

At what time will Miss Marple arrive in Southampton ?

d) What is the speed of the train? (in miles per hour)

3/ Scotland Yard (the site of the police headquarters) keep a special train for her return so she can leave Southampton at any time.

She needs more than a night to solve this case but she really wants to be back in London for tea time the next day.

Before what time must she leave Southampton with her special train?

I think I do deserve a nice cup of tea !
