Maths Session number 20 : fractions and mixed numbers

HOGWARTS EXPRESS

Exercise $\mathrm{n}^{\circ} 1$ : Watch the video and complete .

Harry says : « platform ... and .... "

Platform $93 / 4$ is located between platform and platform ...

Exercise $\mathbf{n}^{\circ}$ 2: Look at the example then draw pizzas inside the white rectangles.

In the train, Harry is hungry, he is eating $3 \frac{1}{3}$ pizzas $\longrightarrow$
1

Ron is eating $4 \frac{3}{8}$ pizzas!

Hermione is not very hungry; she is eating $\frac{1}{4}$ of a pizza. $\longrightarrow$

Exercise n ${ }^{\circ}$ 3: Look at this ruler

Find the EXACT position of $93 / 4$ on the line

Exercise $\mathrm{n}^{\circ} 4$ : In England,

they measure with

This is an English ruler.

Complete :

1 inch = cm

| cm | 7 | $\ldots$ | 9.5 | $\ldots$ | 0.5 | $\ldots$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| inch | $\ldots$ | 3 | $\ldots$ | $21 / 4$ | $\ldots$ | $3 / 4$ |

Exercise $\mathrm{n}^{\circ} 5$ : Measure your thumb in inches

Is your thumb 1 inch long?
English people are very small! (or funny !)

## Exercise ${ }^{\circ} 6$ :

Say how many pizzas you want to eat to your friend. (use mixed numbers)
He or she must draw the pizzas (look at exercise $\mathrm{n}^{\circ} 2$ )
Now it's your turn!
Have fun!

## Fractions and mixed numbers

$$
\begin{aligned}
& 1 / 3=\text { one-third or a third } \\
& 1 / 4=\text { a quarter } \\
& 1 / 5=\text { one-fifth or a fifth } \\
& 1 / 8=\text { one-eighth or an eighth } \\
& 1 / 2=\text { a half } \\
& 2 / 3=\text { two-thirds } \\
& 3 / 4=\text { three-quarters } \\
& 2 / 5=\text { two-fifths } \\
& 5 / 8=\text { five-eights } \\
& 11 / 2=\text { one and a half } \\
& 53 / 4=\text { five and three-quarters }
\end{aligned}
$$
