

URQUHART CASTLE

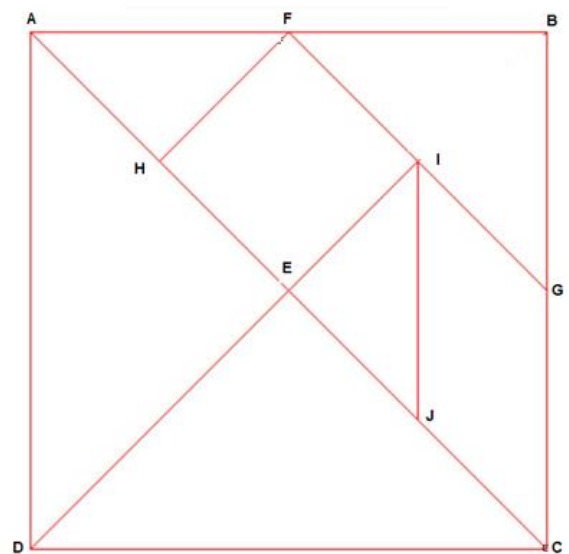

Sherlock Holmes has just received a postcard from his friend Irène Adler. She's on holidays at Urquhart Castle. She is afraid because she hears some noise every night...Is it a ghost? She doesn't know but she really wants Sherlock to solve this case.

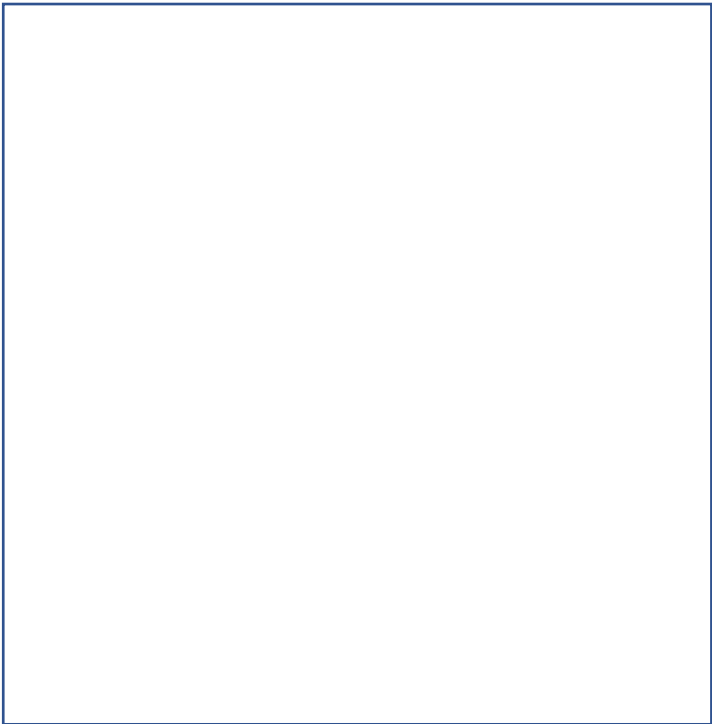

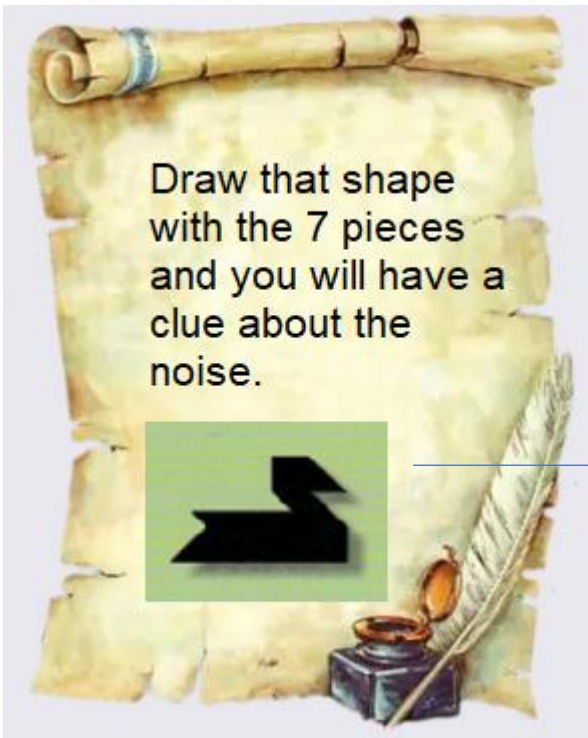

First step: Sherlock find an old book about Urquhart castle in his library

Inside, there are a map

and messages!

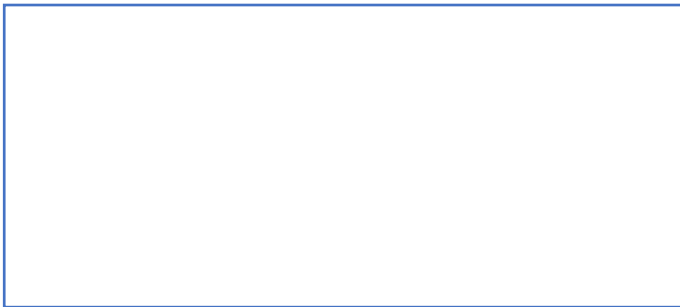

Sherlock knows how to crack that code!

Each number corresponds to the result of a multiplication.

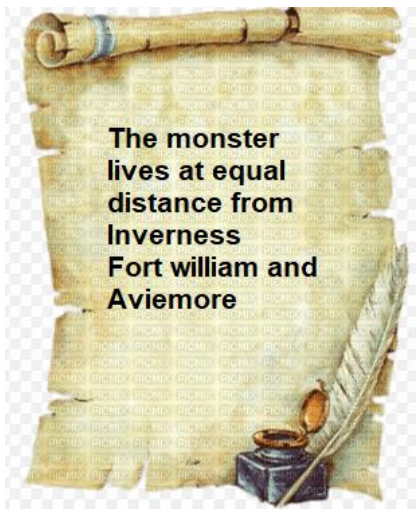

Find the correct factors in the grid and the letter which corresponds.

X	1	2	3	4	5	6	7	8	9
1	T	Y	P	L	Z	I	W	D	O
2	Y	L	I	D	N	F	U	L	I
3	P	I	O	F	K	I	S	A	S
4	L	D	F	L	R	A	A	V	C
5	Z	N	K	R	X	T	M	E	R
6	I	F	I	A	T	C	J	Q	B
7	W	U	S	A	M	J	G	N	M
8	D	L	A	V	E	Q	N	C	E
9	O	I	S	C	R	B	M	E	H

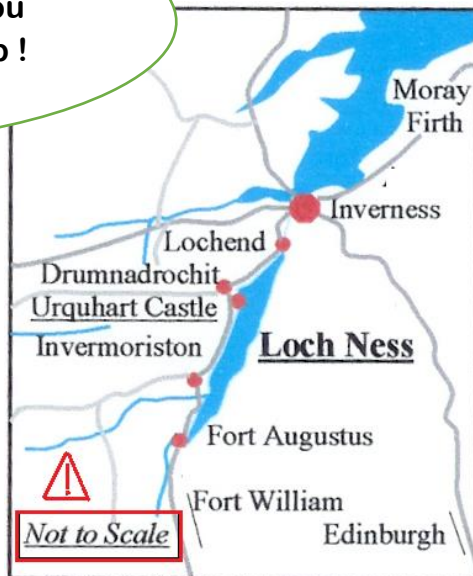

Second step :

Ok ! So, a monster frightened my dear Irène !
I have to find it ! it lives in water but where exactly ?

Hey Mister Holmes ! I can lead you to the monster but first you must find the scale of this map !

Oh Sherlock ! How clever
you are !

Thanks to you I can spend
quiet holidays !
