

# PANIC IN THE LAB!

# Your task

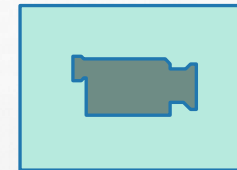

- To **create a video** showing the mistakes, errors or safety hazards that have to be avoided in a lab.
- The form is up to you: it can be a story, an advertisement, a list of instructions ... and it can be comical
- You will work in **groups of 3** and will have to **finish the video in 4 weeks.**

- lab vocabulary accurate, adapted and clearly introduced
- correct use of modals : must, should, could, may, would...
- videos have to be understandable and audible
- Involvement in the project during the 4 weeks

ASSESSMENT

# Example
